Technical Requirements - Birthday Invite Card

Challenge is accessible on Memberspot: https://pl-coding.mymemberspot.de/library/jx3b7Qik9ip5qpNI8IF2/xLKs08sdiaFgUoXaNS9g/65i3ofacIL_jkJww7NgYN

🎭 Scenario

You're onboarding a new dev who swears by XML. To show them the glory of Jetpack Compose, you promise to recreate a simple birthday invite screen "without even opening a layout file." Now the pressure's on — you need a clean layout that looks great.
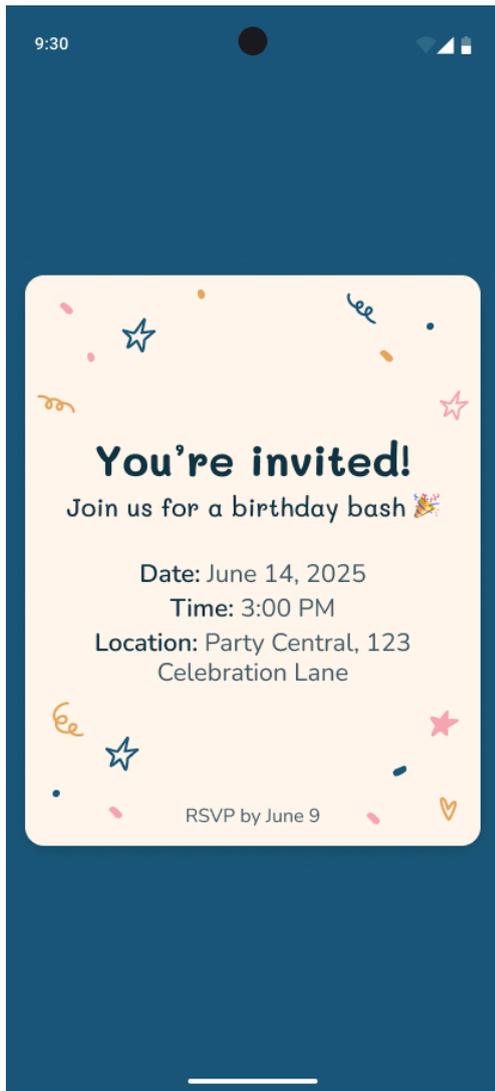

🎨 Figma Mockups

https://www.figma.com/design/ZHKMtYlFynRlOr1vDZRiHN/Birthday-Celebration-Challenge?node-id=0-1
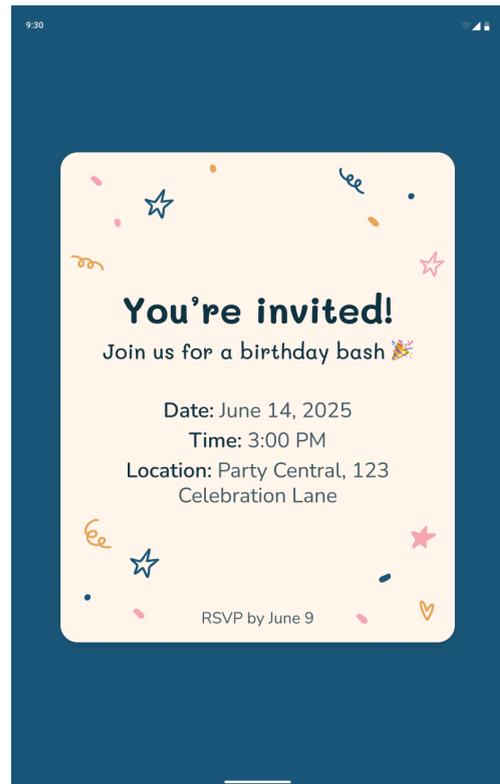

🎯 Feature Goal

Build a static birthday invite screen using only Jetpack Compose layout elements.

📌 Requirements

- Full screen blue background edge to edge
- Invite card with rounded corners
  - Contains a confetti graphic
  - In center of card is title and subtitle text
  - Beneath that is text with the date, time, and location of the event
  - At the bottom of the card is the RSVP date

Phone layout

Tablet layout

🤔 What's Allowed?

- Jetpack Compose standard UI elements only
- No 3rd party libraries are allowed or would be required to complete this challenge
- No state, no interactivity — just static layout

⚠️ What's not important

- Pixel-perfect font or spacing — close enough to feel polished is fine.
- Responsiveness across every screen size — focus on phone portrait and tablet

🏆 Submission & Rewards

- A successful submission of this challenge via the `/submit-challenge` command on Discord grants you **75 XP**. You can use it in any channel on Discord :)
- A successful submission consists of these parts

1. A link to a Gist showing your code for this challenge.

2. A screenshot of that shows both portrait and tablet layouts of your final design
